Dear Supervisors:

**DEPARTMENT OF PUBLIC WORKS:
AUTHORIZE THE DIRECTOR OF PUBLIC WORKS
TO APPLY AND ACCEPT A FEDERAL AVIATION
ADMINISTRATION AIRPORT IMPROVEMENT PROGRAM GRANT AND
A STATE OF CALIFORNIA DEPARTMENT OF TRANSPORTATION
CALIFORNIA AID TO AIRPORTS PROGRAM AIRPORT IMPROVEMENT
PROGRAM MATCHING GRANT;
ESTABLISH PROJECT, AND APPROVE APPROPRIATION ADJUSTMENT
FOR DESIGN OF THE EL MONTE AIRPORT
APRON PAVEMENT REHABILITATION PROJECT
CAPITAL PROJECT NO. 88744
(FIRST DISTRICT) (4 VOTES)**

SUBJECT

Approval of the recommendations will allow the Department of Public Works to apply for and accept a Federal Aviation Grant, and State of California Grant to complete design for the proposed El Monte Airport Apron Pavement Rehabilitation Project.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that the proposed El Monte Airport Apron Pavement Rehabilitation Project is categorically exempt under the California Environmental Quality Act because the Project includes repair and maintenance of existing facilities, and minor public alterations in the condition of land and for the reasons stated in this letter and in the record of the Project.

2. Establish the proposed El Monte Airport Apron Pavement Rehabilitation Project, Capital Project Number 88744, with a total Project cost estimate of \$8,000,000.
3. Approve the appropriation adjustment to transfer \$500,000 from the Department of Public Works, Aviation Enterprise Fund (M02), to the proposed El Monte Airport Apron Pavement Rehabilitation Project, Capital Project No. 88744.
4. Authorize the Director of Public Works, or her designee, to apply for a Federal Aviation Administration Airport Improvement Program Grant; and a State of California Department of Transportation California Aid to Airports Program Airport Improvement Program Matching Grant for design of the proposed El Monte Airport Apron Pavement Rehabilitation Project.
5. Approve an exception to the County of Los Angeles Grant Policy by authorizing the Director of Public Works, or her designee, to timely accept the Federal Aviation Administration Airport Improvement Program Grant and the State of California Department of Transportation California Aid to Airports Program Airport Improvement Program Matching Grant for design of the proposed El Monte Airport Apron Pavement Rehabilitation Project.
6. Authorize the Director of Public Works, or her designee, to conduct business with the Federal Aviation Administration and the State of California Department of Transportation on all matters related to the grant funds for this Project only, including execution of the grant agreements and signing requests for design reimbursement.
7. Authorize the Director of Public Works, or her designee, to undertake all actions to carry out design of the proposed El Monte Airport Apron Pavement Rehabilitation Project, including any amendments, extensions of time, and minor changes in Project scope design.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended actions is to find the proposed Apron Pavement Rehabilitation Project (Project) exempt from the California Environment Quality Act (CEQA), establish the Project, and authorize the Department of Public Works (Public Works) to apply for and accept a Federal Aviation Administration (FAA) Airport Improvement Program (AIP) Grant and a State of California Department of Transportation (Caltrans) California Aid to Airports Program (CAAP) AIP Matching Grant for design of the proposed Project.

On November 8, 2011, Agenda Item 20, the Board approved the Director of Public Works (Director) to award and execute as-needed consultant agreements for aviation design engineering services at the five airports owned by the County of Los Angeles (County) to support the County's Airport Capital Improvement Program. The design for the proposed Project will be completed by a qualified as-needed aviation design engineering consultant.

The grants will allow for the design of the proposed Project to rehabilitate the entire paved apron area of the airport, which is approximately 2,100,000 square-feet (48 acres), with conditions that do not comply with FAA standards. Its rehabilitation is required to comply with FAA standards and improve the condition of the paved apron area.

Upon completion of the proposed Project design, Public Works will return to the Board to request adoption of the plans and specifications and the Board's authorization to apply for and accept Federal and State grants for the construction portion of the proposed Project and advertise for construction bids.

The construction of the proposed Project will include in-place pulverization of asphalt concrete, soil stabilization, grading and drainage, compaction, asphalt overlay, and striping of the entire paved apron area of the airport. The construction will be divided into three phases over the next three years, which will be dependent upon the availability and allocation of FAA grant funding for the proposed Project. A construction contract will be awarded to a qualified construction contractor that is the Lowest Responsive and Responsible Bidder through a competitive bid process.

Green Building/Sustainable Design Program

In keeping with the intent of the County's recently adopted amendments to the Green Building/Sustainable Design Policy, the recycling/reuse of pulverized asphalt concrete and other existing materials will be incorporated into the design of the proposed Project.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provision of Operational Effectiveness (Goal 1), Fiscal Sustainability (Goal 2), and Integrated Services Delivery (Goal 3). Implementation of the recommended actions will authorize Public Works to seek grant funds from outside sources to increase the County's project funding capabilities, will provide an improved and more accommodating facility for airport customers, and will support quality public works infrastructure services to the communities.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

The proposed Project design will initially be funded with Public Works' Aviation Enterprise Fund (M02 Enterprise Fund) pursuant to approval of the attached appropriation adjustment (Attachment II) will transfer \$500,000 from the M02 Enterprise Fund, to the El Monte Airport Apron Pavement Rehabilitation Project to fund project design. Upon Project completion, the FAA IP and Caltrans CAAP AIP grants will reimburse the M02 Enterprise Fund via appropriation adjustment.

The anticipated FAA AIP grant of \$450,000 will reimburse a minimum of 90 percent of the \$500,000 design cost. The Caltrans CAAP AIP Matching Grant will fund \$22,500, which equates to a maximum of 5 percent of the FAA AIP Grant amount for design of the proposed Project and the remaining \$27,500 will be funded with the M02 Enterprise Fund.

The total Project cost estimate for design and construction is \$8,000,000. As detailed in the Project Budget Summary in Attachment I, the proposed Project budget includes \$7,100,000 for construction contract, including contingency; \$600,000 for consultant services, which includes design engineering; \$300,000 for County services, which includes project administration, construction inspections, and engineering review.

When design is completed, the construction element of the proposed Project will be initiated contingent upon appropriation of FAA grant funding.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Pursuant to Public Utilities Code Sections 21681-21684 and Section 4064 of the Caltrans CAAP Regulations, local government approval is required before submitting an application for grant funding.

Following the FAA AIP Grant offer, Public Works typically has less than one week to execute and accept the grant agreement. To meet this short deadline from the FAA, Public Works recommends that the Board approve an exception to the County's grant policy, which requires that all grants are to be accepted by the Board. The proposed exception to the grant acceptance policy would allow the Director, or her designee, to timely accept the Federal grant on behalf of the County.

On July 11, 2000, the Board approved guidelines for the acceptance of State and Federal grants in the amount of \$100,000 or more. These guidelines include a requirement that a County Department prepare a Grant Management Statement for the Board's review prior to that Department carrying out activities covered under the grant.

The attached Grant Management Statement for the FAA AIP Grant, Attachment III, has been prepared to conform to this requirement.

All Grant Agreements will be reviewed and approved as to form by County Counsel prior to execution by the Director, or her designee.

ENVIRONMENTAL DOCUMENTATION

The proposed Project is categorically exempt from the CEQA. The work, which would include the demolition of and repair, maintenance and rehabilitation of existing paved apron areas at the airport, is within certain classes of projects that have been determined not to have a significant effect on the environment in that it meets criteria set forth in Sections 15301(c), (d), and (l) and 15304(a) of the State CEQA Guidelines and Classes 1(c), (h), (i), (n) and (x) and 4(a) of the County's Environmental Document Reporting Procedures and Guidelines, Appendix G, which applies to operation, demolition, repair and maintenance and the addition of safety equipment at existing facilities, and minor public alterations in the condition of land. The proposed Project involves negligible or no expansion of an existing use and does not include removal of healthy, mature, scenic trees. Additionally, the proposed Project is not located in a sensitive environment and there are no cumulative impacts, unusual circumstances, or other limiting factors that would make the exemption inapplicable based on the proposed Project records.

Public Works will return to the Board, as necessary, if any additional environmental documentation is required, following design completion.

Upon the Board's approval of the proposed Project, Public Works will file a Notice of Exemption with the Registrar-Recorder/County Clerk in accordance with Section 15062 of the State CEQA Guidelines.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

All users of the airport will benefit from completion of the proposed Project, which will provide a more accommodating airport facility and reduce maintenance costs for the County. The proposed Project will not impact normal operations at the airport.

The Honorable Board of Supervisors
December 11, 2012
